

YORLAB[®] ICE LINED REFRIGERATOR **Model No.: YSL / YSI-950**

Intelligent Control & Constant Temperature
multiple alarm bring more security

Constant Temperature under Intelligent Control

High-precision computerized temperature control system: The cabinet has built-in high-sensitivity temperature sensors, ensuring a constant temperature inside it.

Security System

The well-developed audible & visual alarm system (with multiple audible & visual alarm functions, such as high temperature alarm, low-temperature alarm, sensor failure alarm, door opening alarm, power outage alarm) makes it safer for storage.

High-efficiency Refrigeration

Equipped with environmentally-friendly Freon-free refrigerant and compressor supplied by an international famous brand, the refrigerator is characterized by fast refrigeration and low noise. When there is power outage, the holdover time is up to 27+ hours, which provides sufficient time for transferring samples.

Human-oriented Design

Melting 2 ~ 8°C ice-lined refrigerators are specially designed for up to 43°C high ambient temperature zones ; Start-delay time setting function (solving the problem of simultaneous startup of batch products after power failure).
